

The PowerShell® with Extended Life Battery

The PowerShell is the first fully integrated power solution for CPAP users that need a totally portable, integrated power source. It is small enough to fit in the palm of your hand but has enough power for a full night of cord-free CPAP. The Extended Life Battery should provide 8.9 hours of CPAP therapy at the highest settings (20 cmH2O, Z-Breathe® 3). The PowerShell is compatible with both the Z1® and Z2® CPAPs.

- Soft, padded 2mm neoprene skin over a solid plastic skeleton ensures a secure fit
- Surrogate power plug for built-in charging using the standard Z1/Z2 power adapter
- Insert the Extended Life Battery module and the Z2 or Z1 to create an integrated form-factor

Breas Extended Life Battery Technical Specifications

Specifications	
Weight	15.5oz / 440g
Power	14.4 V
Capacity	97.9 Watt Hours (Wh)
